

Description

Sucram C-150 is a unique patented high intensity sweetener and taste enhancer developed for use in a wide variety of animal feeds.

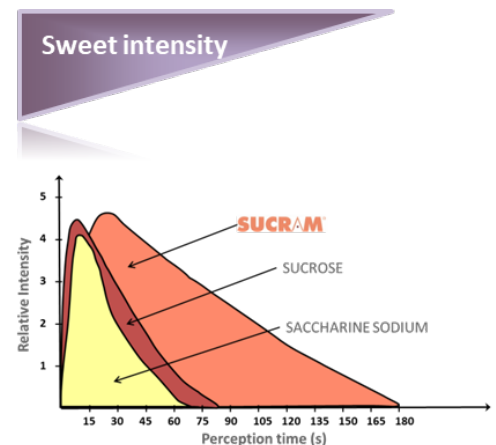

Features

- Sucram is an intimate combination of high intensity sweeteners (saccharin), potentiators and enhancers.
- Approximately 540 times sweeter than sugar.
- Sugar like; clean long lasting sweet taste with excellent mouth feel.
- No lingering bitter or metallic after tastes.
- Low inclusion rates per ton of final feed.
- Manufactured in accordance with ISO Fusion Technology ensuring:
 - ⇒ homogeneous distribution and flow-ability
 - ⇒ micro-encapsulated → stability, uniformity and analytical traceable
 - ⇒ Thermally protected by a retention agent

Benefits

- Enhances feed palatability and stimulates feed intake particularly with young animals and during stress periods.
- Mask bitter/unpalatable tastes associated with high levels of medications and minerals.
- More uniform feed intake, improving performance in terms of growth and efficiencies.
- Permits feed formulation changes without affecting intake patterns.
- Sucram stimulates glucose, sodium and water absorption in the lower digestive tract
- 100% soluble in water

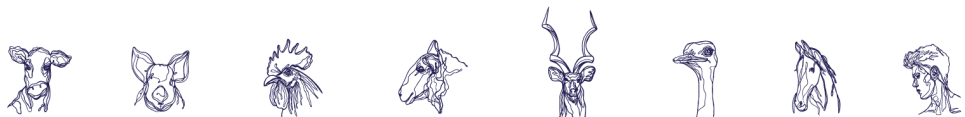

Applications

Target Feeds	Inclusion rates
Piglet diets	200-250g/ton
Sow lactation and flush diets	100-150g/ton
Feedlot starter diets	200g/ton
Calf starter diets	200g/ton
