

Description

MOLASWEET is a **multi –sensory palatant** with a well-balanced combination of high-intensity sweetener and molasses flavour to reconstitute the taste, smell and sweetening power of high-quality cane molasses.

Features

- Confers a similar sweet taste and cane molasses flavour to the feed containing no or small amounts of molasses.
- Manufactured in accordance with ISO Fusion Technology, ensuring:
 - ⇒ homogeneous distribution and flowability.
 - ⇒ micro-encapsulated → stability, uniformity and analytical traceability.
 - ⇒ thermally protected by a retention agent.
- Quantitative traceability by high-pressure liquid chromatography (HPLC).
- Compliant with EU regulations, free of GMOs and animal products and carries a FAMI-QS certificate of analysis

FLAVOR ID

Benefits

- 40g of Molasweet replaces the taste and smell of 10 kg cane molasses in diets.
- Creates space for other nutrients in high-density diets.
- Enhances feed palatability and stimulates feed intake, improving ADG.
- Masks bitter/unpalatable tastes associated with high levels of medications and minerals.
- Overcome the potential sensorial variations of molasses of different origins.
- Very easy to store, handle and incorporate into any feed.
- Ensures regular intake when a variation in raw materials or a change in formulation occurs.
- Molasweet stimulates glucose, sodium and water absorption in the small intestine in both swine and ruminant animals, resulting in improved production efficiency.

Applications

Complete feeds	150-250 g/ton
Complementary feeds	200-300 g/ton

Please note that application rates are dependent upon raw materials used in feed formulations.
