How to Apply Stalosan F

Stalosan F is applied every third day at 50g/m² for prevention.
In the case of an outbreak, apply Stalosan F every day.

Ensure proper contact of Stalosan F with bedding material

Applicators

Stalosan F will not be effective against *Cryptosporidium* oocysts from contaminated water sources. Stalosan F is not designed as an oral treatment for *Cryptosporidium*.

FOOTBATH

If boots have mud on them:
First step in a tub of water and shake the mud off.
Then step in the Stalosan F Footbath

Stalosan F covers top of boots and is in the grooves of the boots

Stalosan F does not cover top of boots and is not in the grooves of the boots
